

PROFESSIONAL SUMMARY

Motivated Unity Developer with 8 months of hands-on experience in building interactive applications using C# and Unity tools. Skilled in AR/VR development, multiplayer systems, UI design, and performance optimization. Seeking an opportunity to contribute creative solutions and grow in a challenging game or simulation development environment.

EDUCATION

Sal Engineering and Technical Institute
Bachelor's Degree in Computer Science & Engineering 2022 – 2026

TECHNICAL SKILLS

- C#
- Unity (Unity Editor, Unity Tools)
- AR Foundation, VR Interaction
- Unity UI, Canvas System
- VFX, Particle Systems, Shader Graph
- Animator, Rigidbody, Colliders
- Performance tuning, memory optimization

CERTIFICATIONS

- Completed 5 courses For Technical Skills Improvement from Coursera E-learning Platform.
- Attended Webinars and Seminars conducted by different organizations

Language

- Gujarati
- Hindi
- English

PROFESSIONAL EXPERIENCE

Unity Developer Intern

The Intellify | Feb 2025- August 2025 | Ahmedabad

- Developed an AR application using Unity and C#, implementing real-world interaction features
- Built an endless zombie shooter with AI, shooting mechanics, and survival gameplay
- Created a 2D “Angry Jump” game with physics-based movement, UI, animations, and optimization

Junior Unity Developer

Dweek Studios. | Dec 2025 - Present | Ahmedabad

- Developed a VR industrial demo independently using Unity, focusing on real-time interaction and immersive experience
- Contributed to a slot game, implementing particle systems and visual effects to enhance gameplay
- Worked on “Ved: Journey Beyond Cube”, using Shader Graph and VFX for visuals, animations, and game logic

Projects

Ved: Journey Beyond Cube / Redplum Slot Game

Worked on game visuals using Particle System, Shader Graph, and VFX Graph

Implemented dynamic effects for gameplay events like win, bonus, and jackpot

Tech Stack: Unity, C#, Shader Graph, VFX Graph, Particle System

VR Defensive Driving Construction Demo

Developed a VR training demo with vehicle controller and multiple interactive activities

Independently handled core functionality and user interactions

Tech Stack: Unity, C#, VR

VR Scaffolding Demo (Work at Height Permit)

Built a VR safety training module with bilingual (Hindi/English) support

Implemented language selector with synchronized audio and UI text

Tech Stack: Unity, C#, VR, UI System
